

LIMO

LIMO Tray

This non-slip tray with its new design is the natural successor to the non-slip polyester tray. It combines all the advantages users are looking for.

45° slopes are not a problem

It holds on tightly but does not stick.

Gravity is the only thing that will make cups, glasses and bottles fall !

- ▶ **Optimum weight** : not too light (so that it sits nicely in your hand), nor too heavy (less tiring for waiters).
- ▶ **Exceptional non-slip qualities** : they are its undeniable strong points. It holds without sticking and does not gather dust.
- ▶ **Easy to wash** : extremely stain-resistant and dishwasher safe.
- ▶ **Made in one piece** : its non-slip properties are included in the material and cannot come unstuck.
- ▶ **Excellent rigidity** : does not bend or twist. Very rigid without being too heavy.
- ▶ **Unbreakable** : drop it and it bounces. This is another big advantage.

SIZES

Rectangular
46.00 x 36.00
60.00 x 40.00

Round
Diameter 36 or 45

SIZES

Also exists
in rectangular version
format 46 x 36
and 60 x 40 cm.
