L/B/H (mm): 636/448/550

Weight: 11,8 kg

blu'box 52 gn hot

L/B/H (mm): 636/448/550

Weight: 13,9 kg

Active transport box for heating food in GN containers. A removable heating unit, built into the door, provides both the required heat output and even distribution of air within the interior.

Supplied with:
Door and recirculation air heating;
Connecting lead

The blu'box 52 gn with cool-accu combination (example):
Use of the cool-accu enables cold food to be kept cool while being transported.
